

# Year in Review ~ Q1 2016

## Encore 4.5 SP1 (Q1 2016)

- **IUG Enhancement:** notify patron of upcoming library card expiration IUG
- EDS Research Starters Display for Mobile
- Enhancements to Axis360 integration
- Problem Report fixes

The screenshot shows the Encore Public Library Header (English) search results page. The search term 'sun' is entered in the search bar. Below the search bar, there is a message: 'This button filters your search results. [X]'. The results are displayed as 'Results 1 - 25 of 534777 for sun'. A yellow banner below the results says 'Please log in to view articles [X]'. The first result is a 'Research Starter' titled 'Sun.' with a small image of the sun. The description reads: 'The sun is the star at the center of the solar system, and accounts for almost all (99.86 percent) of the mass in the solar system. It is 330,000 ti...'. The source is 'Salem Press Encyclopedia, January, 2015. 2p.'. Below this result, there are two more results: 'Sun, Skin and Health' by Slevin, Terry, 2014, eBook, and 'Got Sun? : 200 Best Native Plants for Your Garden' by Harstad, Carolyn, 2013, eBook. Both of these results also have a 'Please log in to see more details' message.

# Year in Review ~ Q2 2016

## Encore 4.5 SP2

- **IUG Enhancement:** remove "Cancel All" button in the Holds section of the patron account
- Problem Report fixes
- Improved responsiveness for results that include bibs with a large number of items
- Encore runs on Java 8

## Stability

- In our testing, when running on Java 8, Encore was able to respond to twice as much traffic than on the current versions of Java 6 in the field.

## Responsiveness

- Improved efficiency and responsiveness of queries that include bibs with a large number of items attached. We have made a series of small improvements from streamlining what we send in the API response to running Encore on Java 8.

# Year in Review ~ Q3 2016

## Encore 4.5 SP3

- Improved Searching
  - For queries that include leading articles, we've altered Encore behavior to ignore the leading articles to produce more expected search results.
  - As requested, leading articles in Encore are now handled as they are in WebPAC. Default behavior ignores the following articles: "a, an" and "the".
  - The Encore version will be displayed in the Admin App.
  - For Encore customers with Vital, thumbnails will now display for harvested Vital content.
  - Five more custom facets were added to Encore for a total of 10 custom facets.

## Accessibility improvements

- Darkened font in compliance with the WCAG compliance checker
- Introduced alternate text for images
- Included labels for forms (except the Adv. Search page due to an architectural limitation)
- Improved tab behavior for screenreaders

# Year in Review ~ Q4 2016

## Encore 4.6

- IUG Enhancements:
- checkboxes for selection
- multi-select terms
- more control over EDS facets

**Description**

As a user, I would like to choose whether the library tracks my circulation activity in a reading history.

As a user, I would expect that that my reading history will:

- be accessible via my patron account
- enabled/unenabled through my patron account
- be available via MyLibrary!
- should be searchable
- the view should be customizable on the fly:
  - display just book cover or other associated image
  - display book cover/image with associated metadata
  - display only the metadata (not image)
- each title/entry be able to be added to a list
- each title/entry should display the following metadata:
  - title
  - author/creator
  - publisher
  - pub date

**Dates**
