# Adding Widget for Chat Service

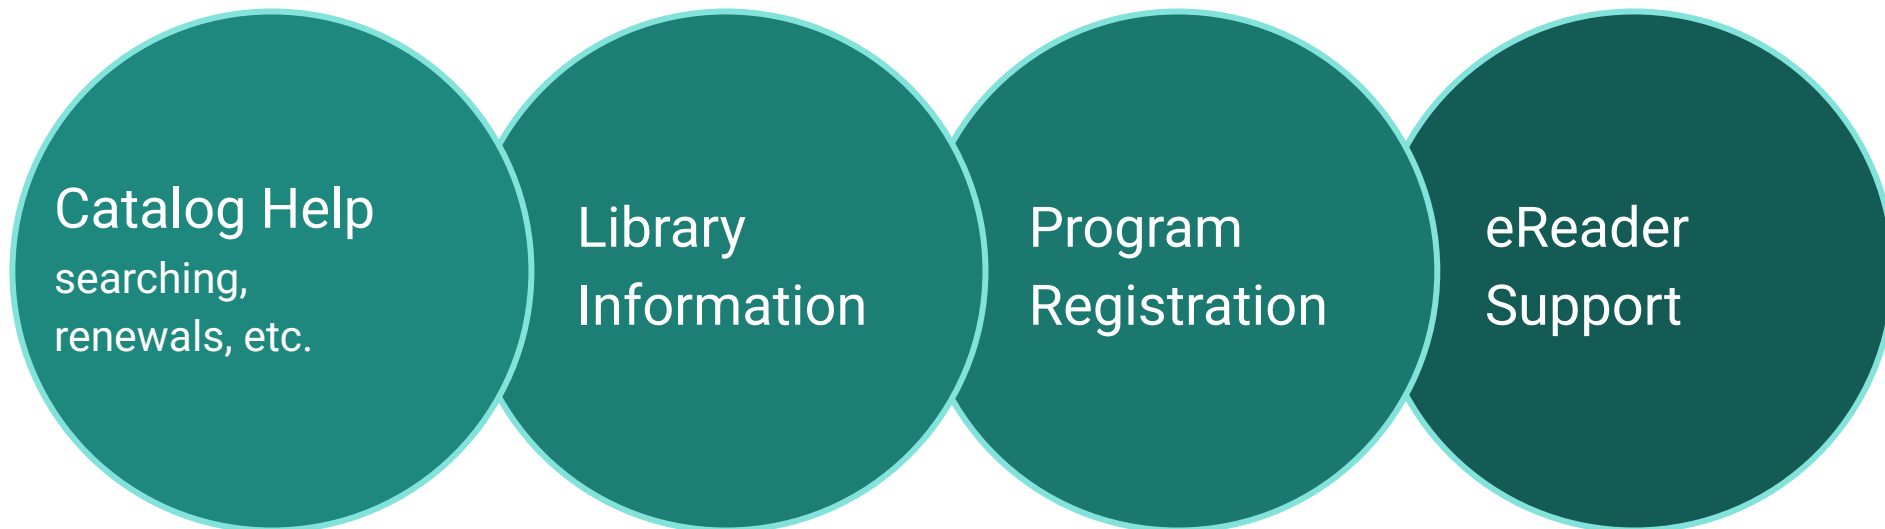

## Unique Chat

- All six libraries have chat service provided by Unique Management Services.
  - Chat service hosted and staffed by them.
  - Library provides oversight and follow-up when necessary.
- Unique provides customer with Javascript code to place on library websites.

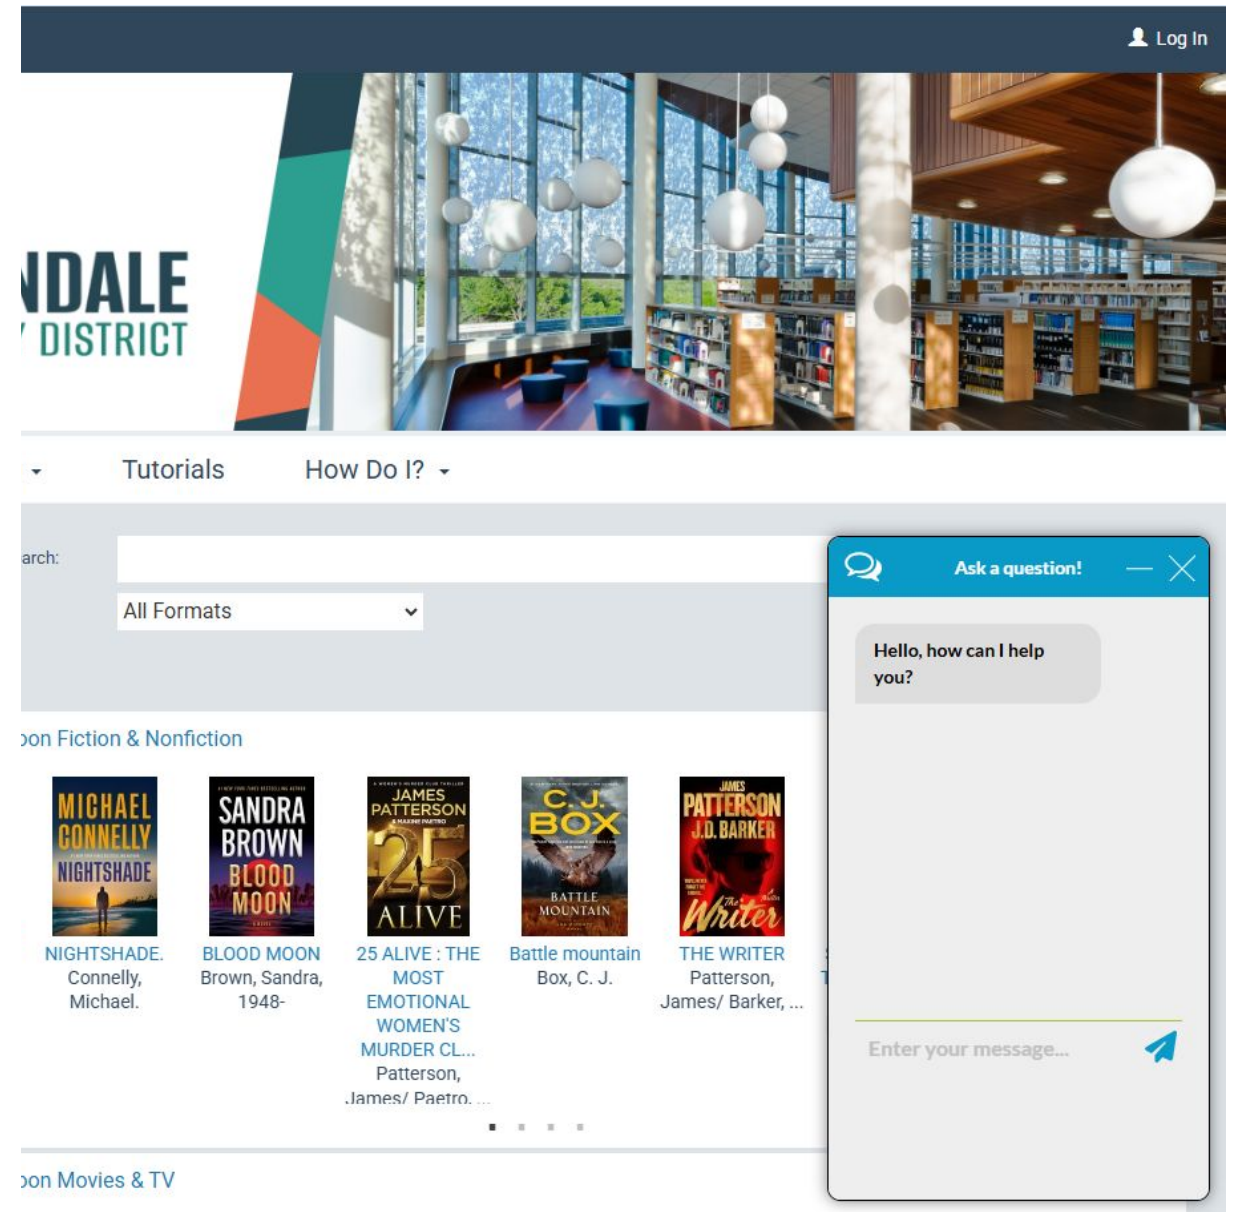

## Unique Chat

- Approximately 4,000 chats per year.

# PowerPAC

- Currently, on PowerPAC
  - Access to root files
  - Added widget to footer of all pages.
- Wanted to mirror functionality in Vega Discover.

# Vega Discover

- Added to Customized Footer Code
- Collection Site for each library
  - Different widgets for each library

```
☒ Use Customized Footer Code
1  <!-- begin UniqueChat code -->
2  <script type="text/javascript">
3      (function() {
4          var se = document.createElement('script'); se.type = 'text/javascript'; se.async = true;
5          se.src = '//storage.googleapis.com/uniqueicchat/js/';
6          var done = false;
7          se.onload = se.onreadystatechange = function() {
8              if (!done&&(!this.readyState||this.readyState==='loaded'||this.readyState==='complete')) {
9                  done = true;
10                 /* Place your UniqueChat JS API code below */
11                 /* UniqueChat.allowChatSound(true); Example JS API: Enable sounds for Visitors */
```

# JUG 2025

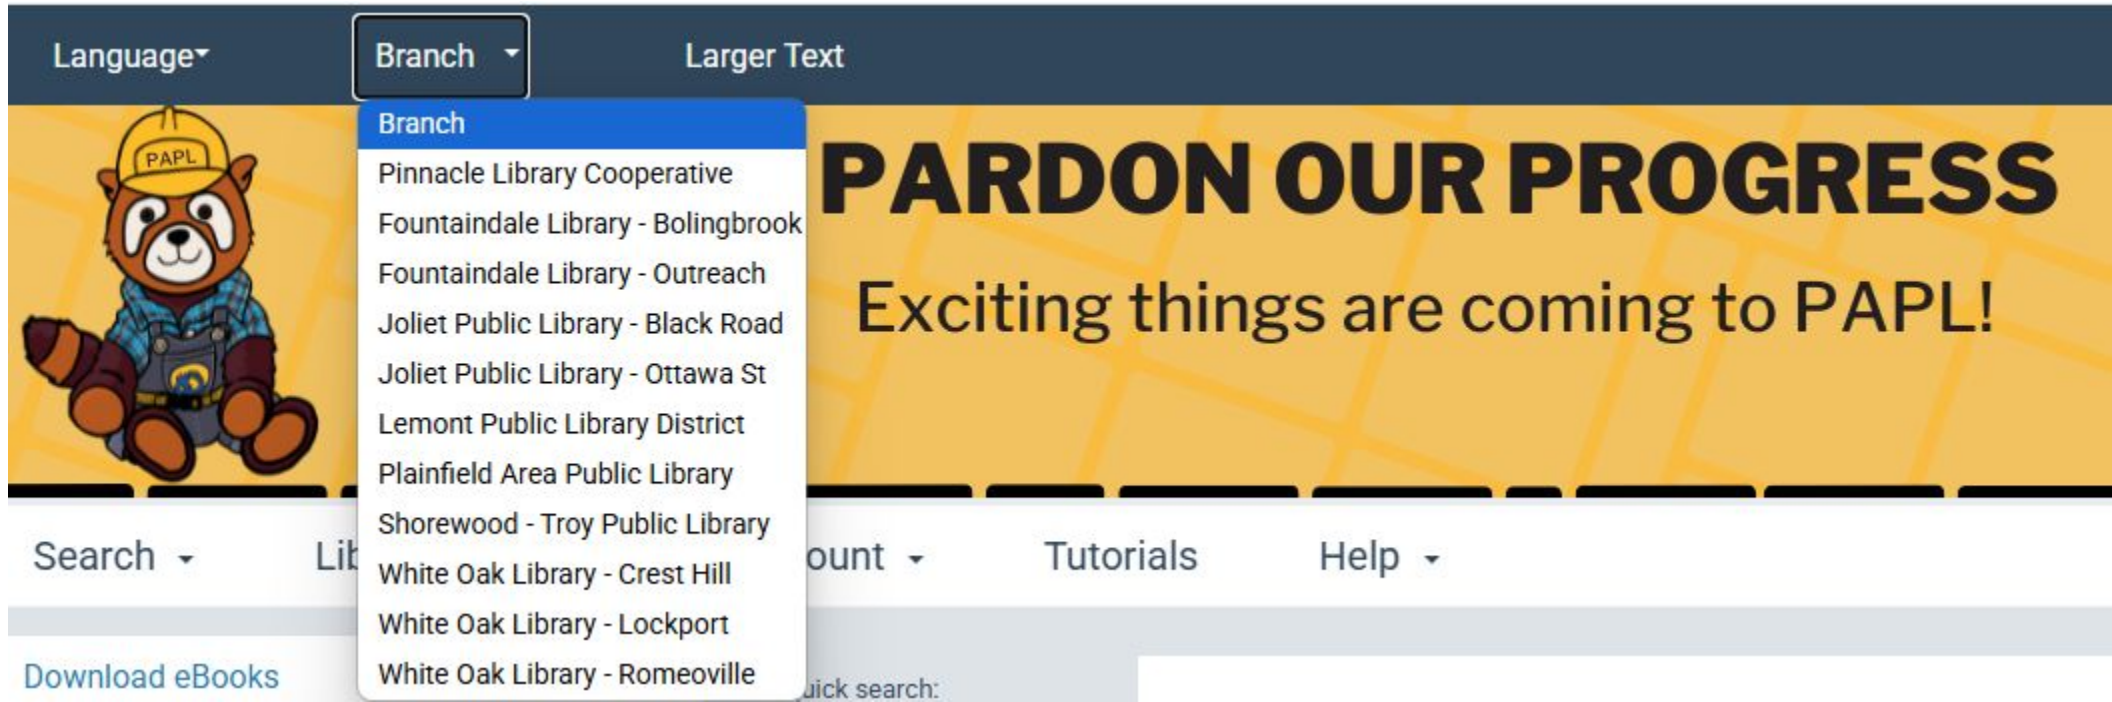

# Creating a Branch Drop-Down

## Branch Switching

- Our six public libraries are geographically close
- Try to break down as many barriers between buildings as possible.
  - Library Card Registration
  - Loan Rules
- Lots of patrons visit multiple buildings/libraries.
  - Give them a way to change which PAC branch they are on

# PowerPAC

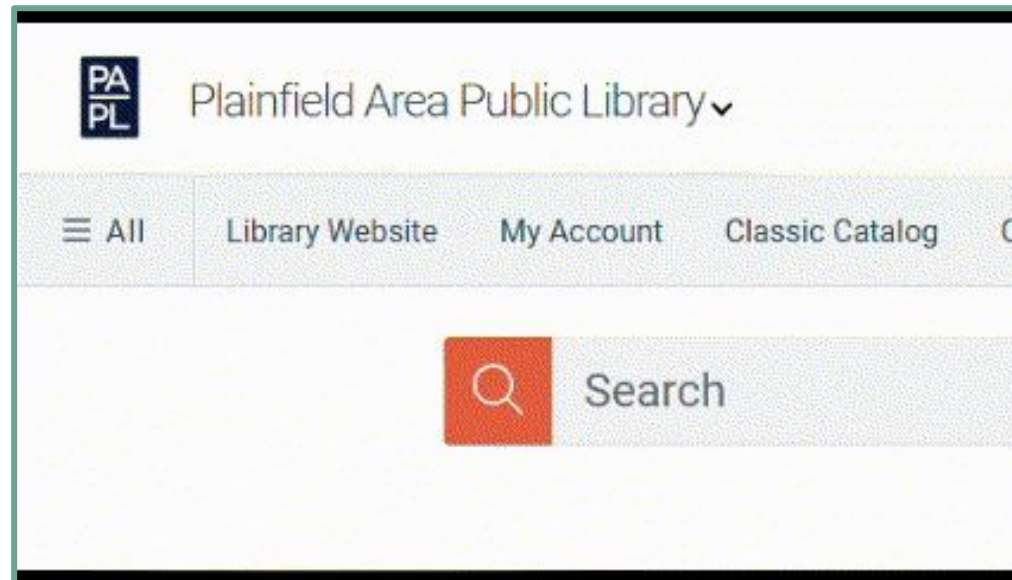

- PowerPAC has ability to enable/disable branch switching.
- Patrons can browse different branches

## Vega Header

- Modified the Vega Header to include Branch Drop-Down
- Requires rebuilding the entire header.
  - Create a completely custom header
  - Re-create the existing Vega header piece by piece

# Clarivate Knowledgebase Solution

- Clarivate has created a solution in the Knowledgebase
  - Add the drop-down
  - Re-create the rest of the header

**"Basic Vega Header Template for Consortias to Add a Collection Site Drop-Down"**

<https://iii.rightanswers.com/portal/app/portlets/results/view/solution.jsp?solutionid=240201122129203>

# Google Analytics & Google Tag Manager

## Google Analytics

- Installed Google Analytics and Google Tag Manager in PowerPAC
  - Search Terms
  - Facet Usage
  - User Devices / Browsers
  - People are clicking the tutorials we made?!
- Important to gather statistics as we migrate to a new catalog.

# Google Tag Manager

- GTM provides code to be placed in the **<head>** and **<body>**
- Place the **<head>** tag in the Vega Header
- You can ignore the **<body>** code
  - Failsafe in case the user doesn't have javascript enabled.
  - If javascript isn't enabled in Vega, we have bigger problems.

### Install Google Tag Manager

Copy the code below and paste it onto every page of your website.

1. Paste this code as high in the **<head>** of the page as possible:

```
<!-- Google Tag Manager -->
<script>(function(w,d,s,l,i){w[l]=w[l]||[];w[l].push({'gtm.start':
  new Date().getTime(),event:'gtm.js'});var f=d.getElementsByTagName(s)[0],
  j=d.createElement(s),dl=l!='dataLayer'?'+l':'';j.async=true;j.src=
    'https://www.googletagmanager.com/gtm.js?id='+i+dl;f.parentNode.insertBefore(j,f);
  })(window,document,'script','dataLayer','GTM-PHXXXXXX');</script>
<!-- End Google Tag Manager -->
```

2. Paste this code immediately after the opening **<body>** tag:

```
<!-- Google Tag Manager (noscript) -->
<noscript><iframe src="https://www.googletagmanager.com/ns.html?id=GTM-PHXXXXXX"
  height="0" width="0" style="display:none;visibility:hidden"></iframe></noscript>
<!-- End Google Tag Manager (noscript) -->
```

3. Test your website (optional):

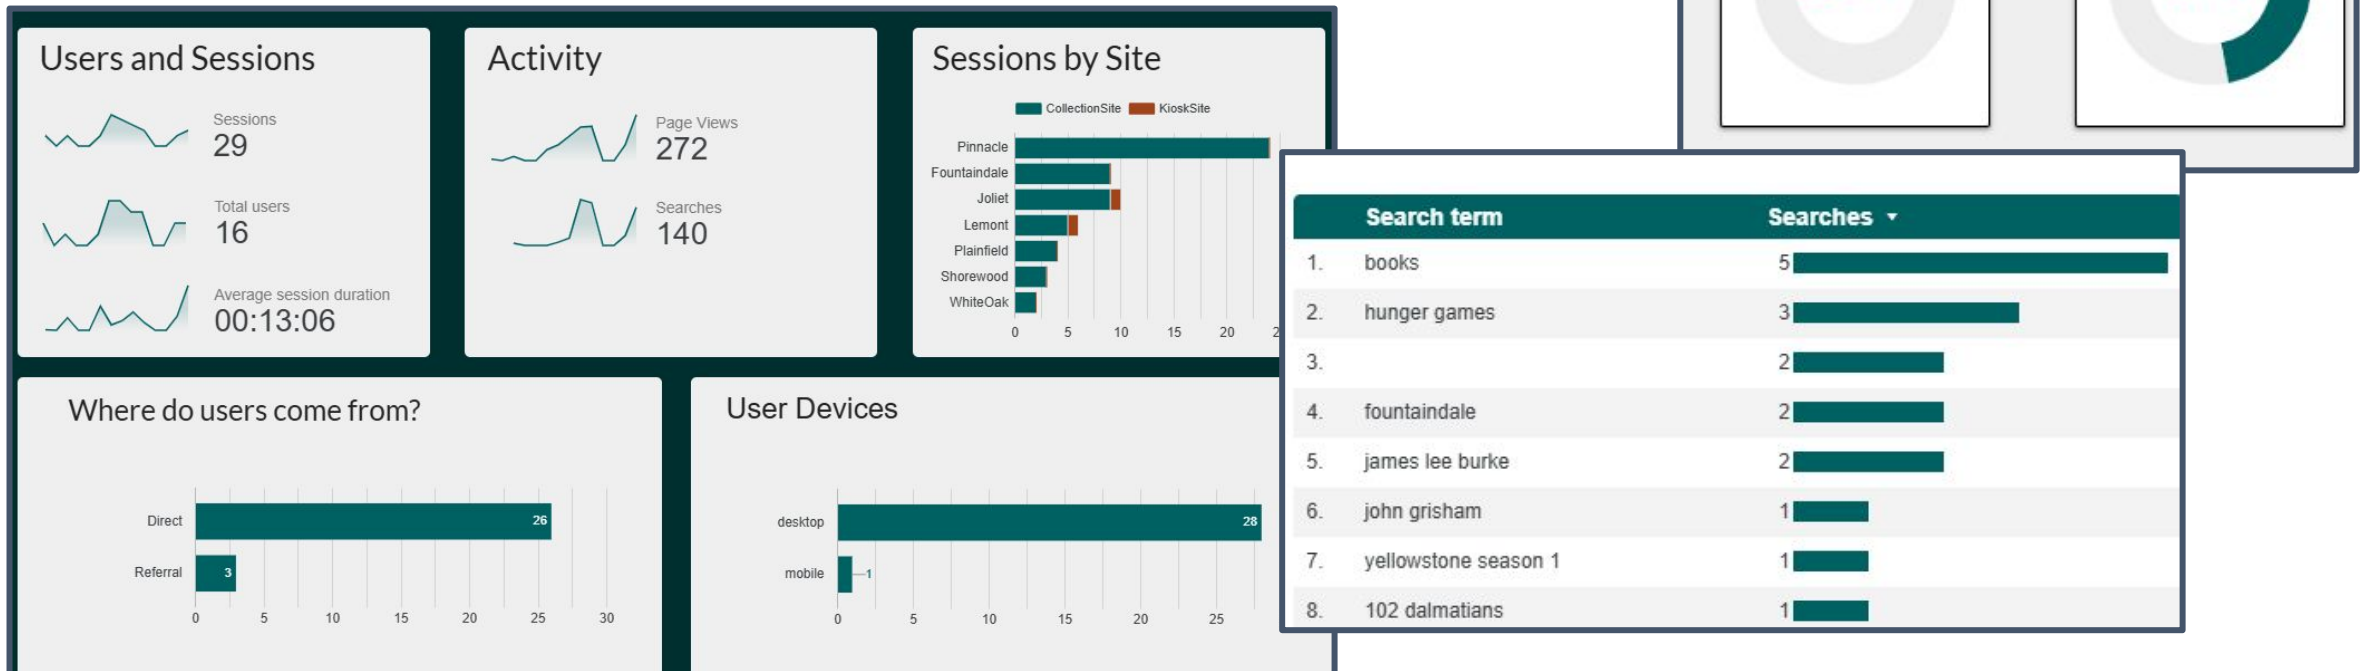

ⓧ Test

For more information about installing the Google Tag Manager snippet, visit our [Quick Start Guide](#).

# Looker Studio

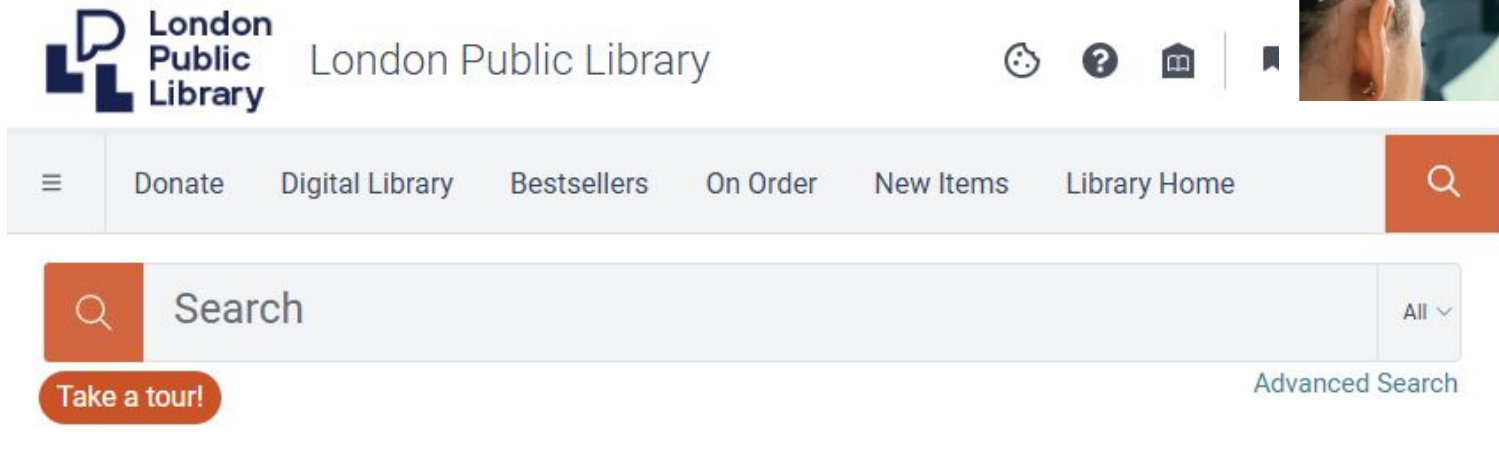

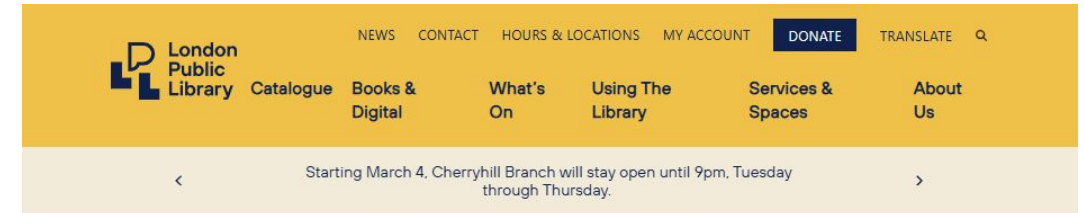

- Once the tag is added to Vega, test for data in GTM.
- Then report on it!
- Lots of options - My preference: Looker Studio

# Vega Discover Header Customizations @ London Public Library

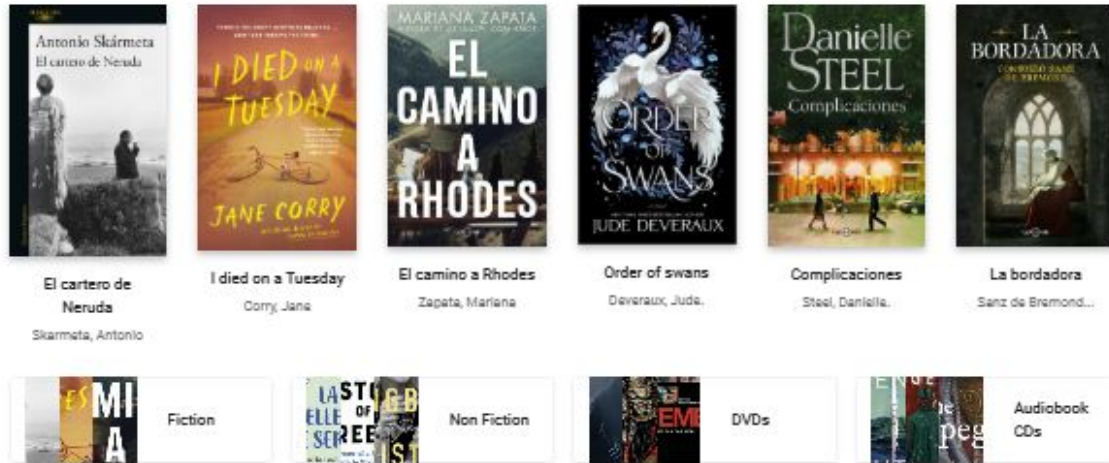

# Vega Discover launched in April 2023

- Development partner
- Vega Discover replaced **encore**

# Considering mobile views

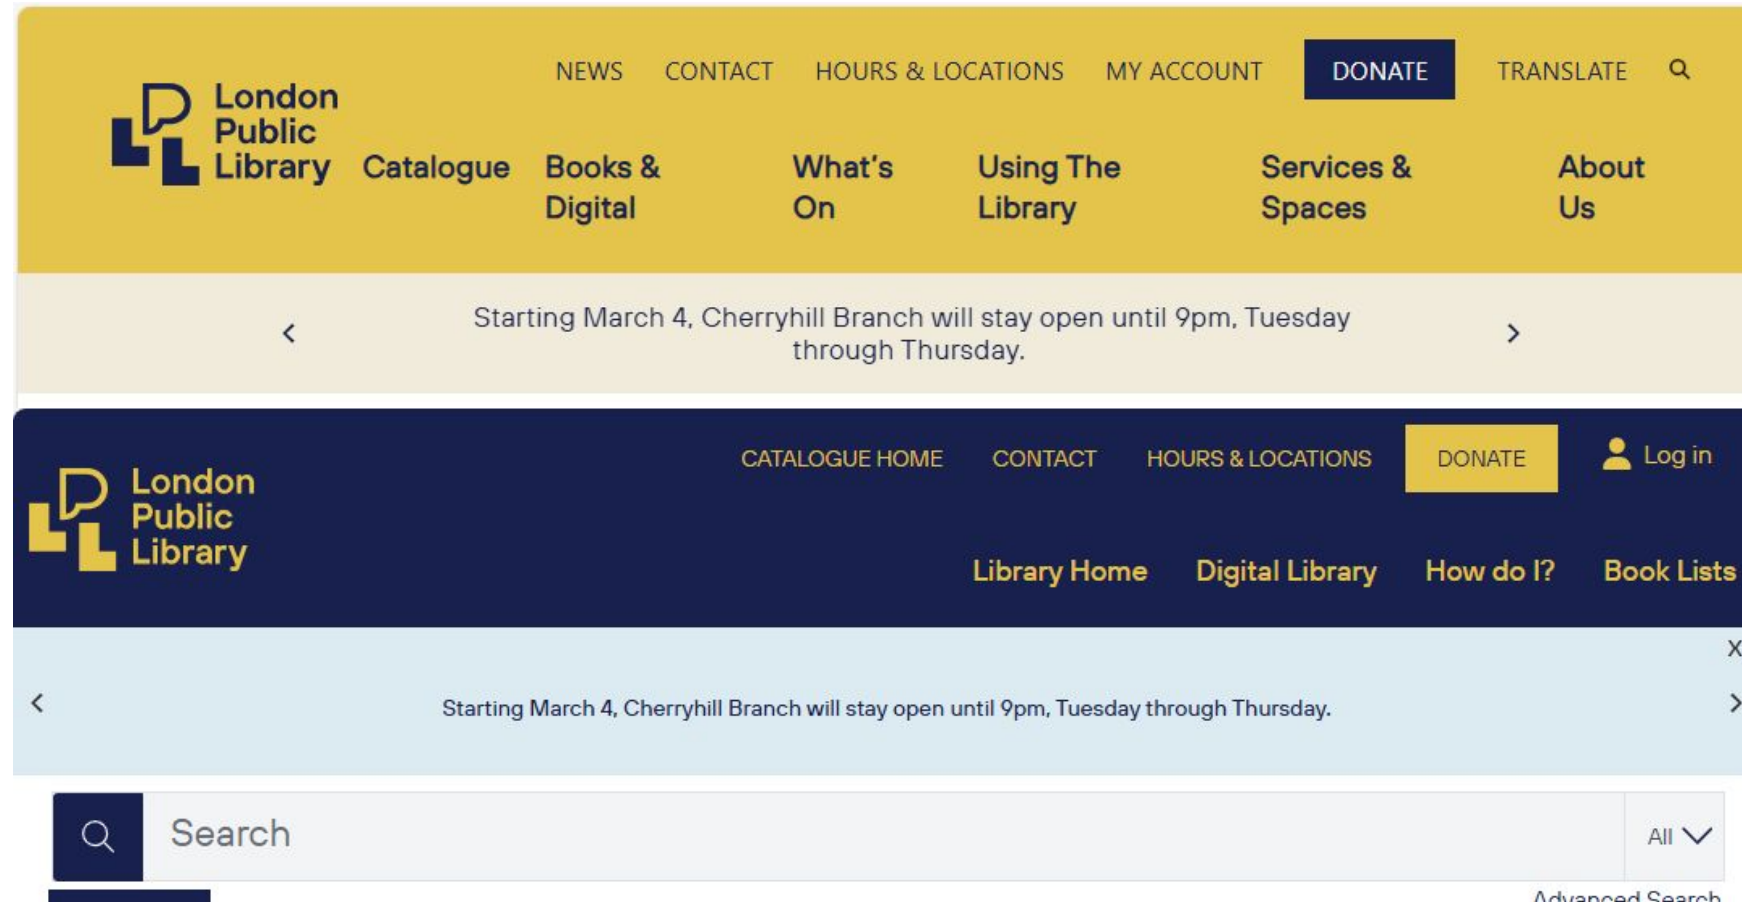

# Using REST API calls to synchronize with website

# Website alerts display in catalogue

- Alerts maintained in one place
- scheduling
- multiple alerts
- custom colour

# Website alerts display in catalogue

- Exposes a GET-based REST API from Drupal for centralized alerts
- Provides a single control point for all notifications
- Simplifies external integrations through a standard interface

**Title \***

**Alert Message**  

Starting March 4, Cherryhill Branch will stay open until 9pm, Tuesday through Thursday.

**Alert List Link**  

**URL**

Start typing the title of a piece of content to select it. You can also enter an internal path such as `/node/add` or an external URL such as `http://example.com`. Enter `<front>` to link to the front page. Enter `<nolink>` to display link text only. Enter `<button>` to display keyboard-accessible link text only.

**Link text**

**Alert Type \***  

Warning ▾

☒ Show on Catalogue

# Website alerts display in catalogue

---

- Use JavaScript fetch to consume the REST API
- Avoid cache to ensure fresh alerts
- Uses localStorage to keep alerts closed for 2 hours

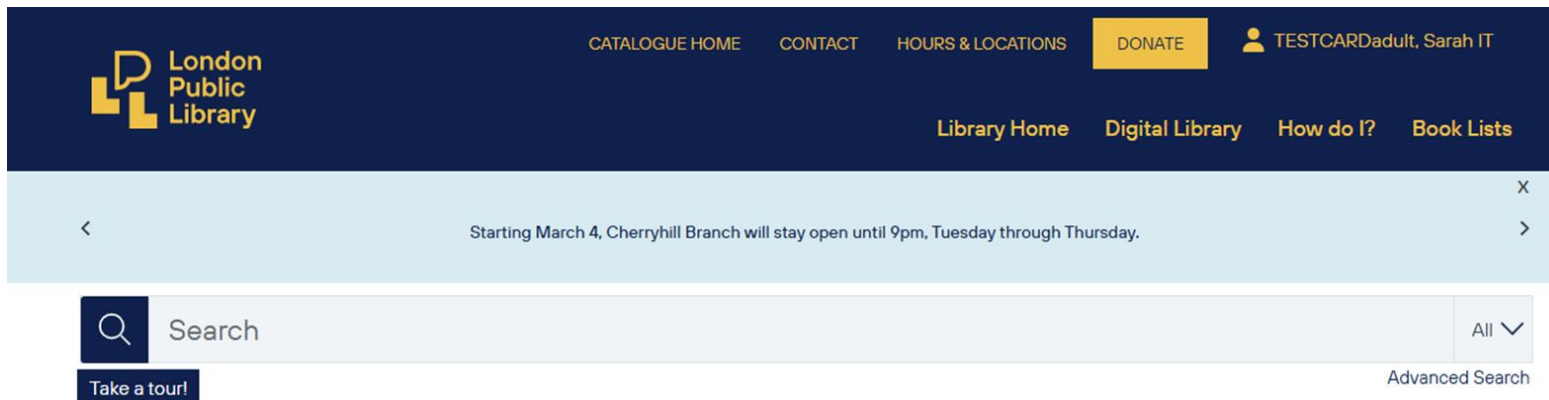

```
fetch('https://www.lpl.ca/jsonapi/node/alert', {  
  method: "GET",  
  cache: "no-cache"  
})  
  
  .then(response => response.json())  
  .then(data => {  
    let alerts = data.data;
```

```
const closedTimestamp = localStorage.getItem(CLOSED_FOR_HOURS_KEY);  
const currentTime = getCurrentTimestamp();  
  
if (closedTimestamp && (currentTime - closedTimestamp) < HOURS_TO_WAIT * 60 * 60 * 1000) {
```

# Website alerts display in catalogue

- Loop through alerts using `forEach` or `map`
- Display each alert dynamically on the page

```
alerts.forEach(alert => {  
  const slide = document.createElement('div');  
  slide.className = 'slide';  
  
  const content = document.createElement('div');  
  content.className = 'alert-content';  
  content.textContent = alert.attributes.field_alert_message;  
  
  slide.appendChild(content);  
  sliderInner.appendChild(slide);  
});
```

# Adding custom content using JavaScript

# Going beyond the limits of home page layout options

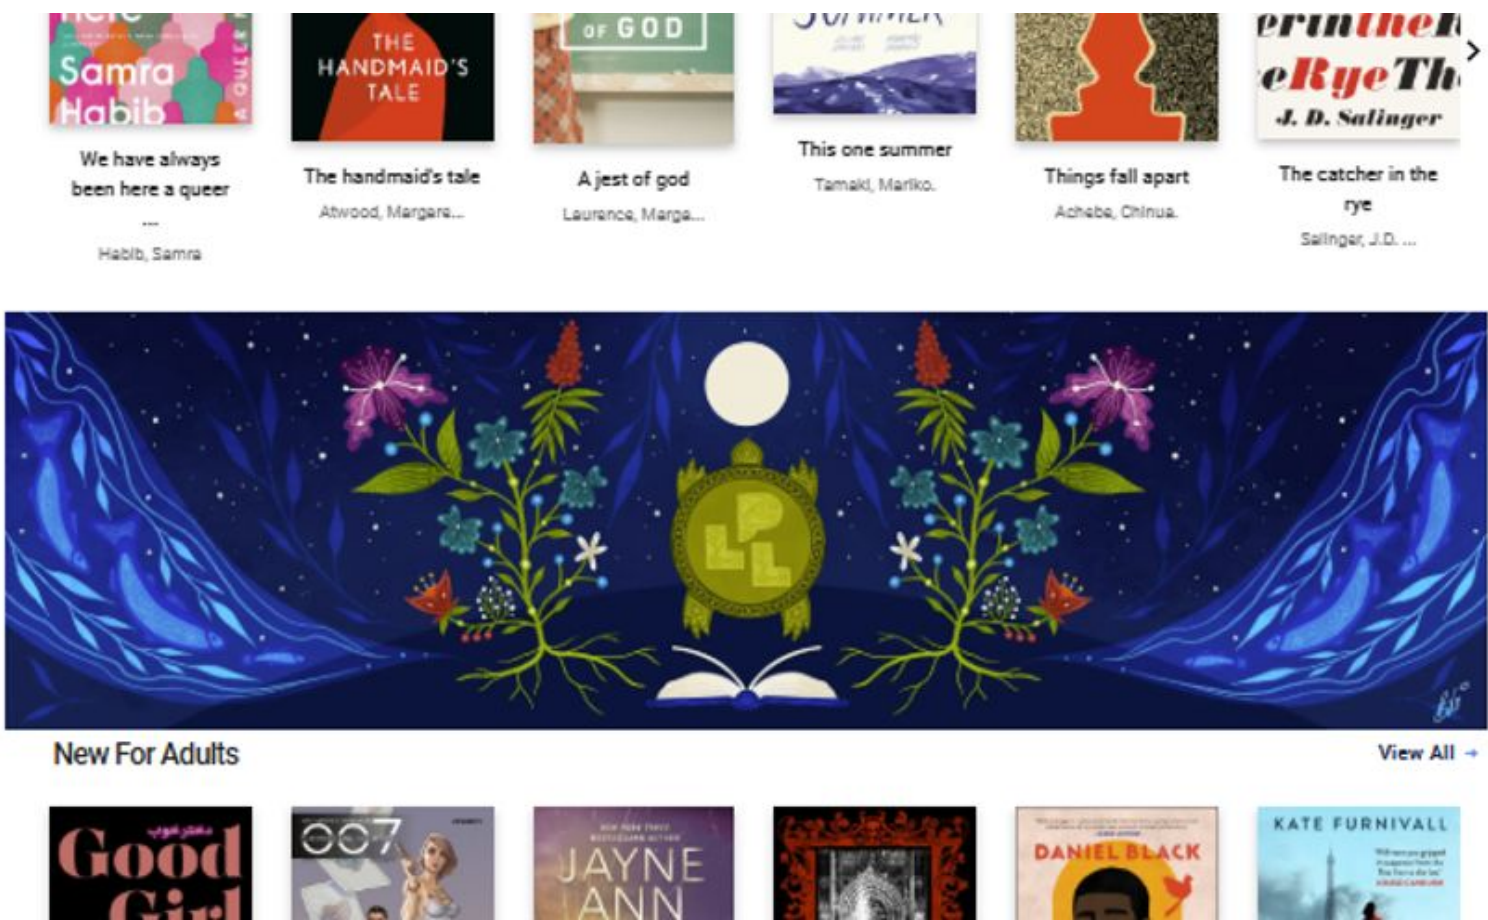

---

- Add elements that don't fit available component templates
- Using MutationObserver to select where we want to add the elements

```
const observer = new MutationObserver((mutations, obs) => {  
  const elementos = document.querySelectorAll('.MuiBox-root');
```

```
const secondBox = muiBoxItems[1];  
const newDiv = document.createElement("div");  
newDiv.classList.add("custom-lpl-content");  
const img = document.createElement("img");  
img.src = "https://www.lpl.ca/sites/default/files/2023-04/resizeX1-min.webp";  
img.alt = "Art Image";  
newDiv.appendChild(img);  
secondBox.insertAdjacentElement("afterend", newDiv);
```

# Going beyond the limits of home page layout options

# Vega Discover Header Customizations @ RHPL

# Vega Discover Homepage Customization at RHPL

**Premium Customization:** RHPL uses Vega Discover Premium for advanced header and footer code injections.

**Kids' Catalog Experience:** Configured with:

- Children - Audience Theme
- Grid layouts with collection-specific content
- Unique homepages for each landing page (e.g., series grids, subject-based imagery, new items)

**Distinct Homepages by Collection:** Separate landing pages for different audiences and services, rather than a single catalog view.

**Future Expansions:** Applying this approach to:

- *Books on Board* (Bookmobiles)
- *Innovative Item Collection* (Library of Things)
- *Local History Collection*

# Vega Discover Refined Search on Homepage

Why move away from Vega Library Lists? Ensures patrons have **refined search** embedded!

The image displays the Vega Discover homepage for the Rochester Hills Public Library. The interface is divided into two main sections: a left sidebar for refining search results and a main content area for search results.

**Left Sidebar (Refine Results):**

- Availability:** At Library (checked) 92
- Date:** 'YYYY' from 'YYYY' to
- Format:** Book (checked) 92
- Collections:**
- Age Group:**
- Literary Form:**
- Persons:**
- Concepts:**
- Language:**

**Main Content Area:**

- Search Bar:** Search Catalog... (with a magnifying glass icon)
- Navigation:** About, Programs, Services, Collections, Connect
- Search Results:** 92 results found for \*. 1-40 of 92. Results per page: 40. Sorted by Relevancy. List/View Grid toggle.
- Filters:** At library, Book, Adult Non-Fiction, Adult Biography, month.
- Buttons:** Reset Filters, Select All, 0 selected, Add to Lists, Place Holds.
- Featured Book:** The JFK conspiracy : the secret plot to kill Kennedy--and why it failed by Brad Meltzer and Josh Mensch. Published: 2025 | English. Book Available, Audiobook Checked Out. On shelf at Main Library. 973.922 M | Shelf location New Releases - Non-Fiction | Collection Adult Non-Fiction. Main Library. Find a copy. Edition information. Place Hold. 0 holds 4 copies.

A large blue arrow points from the 'Refine Results' sidebar to the 'At Library' filter in the main content area.

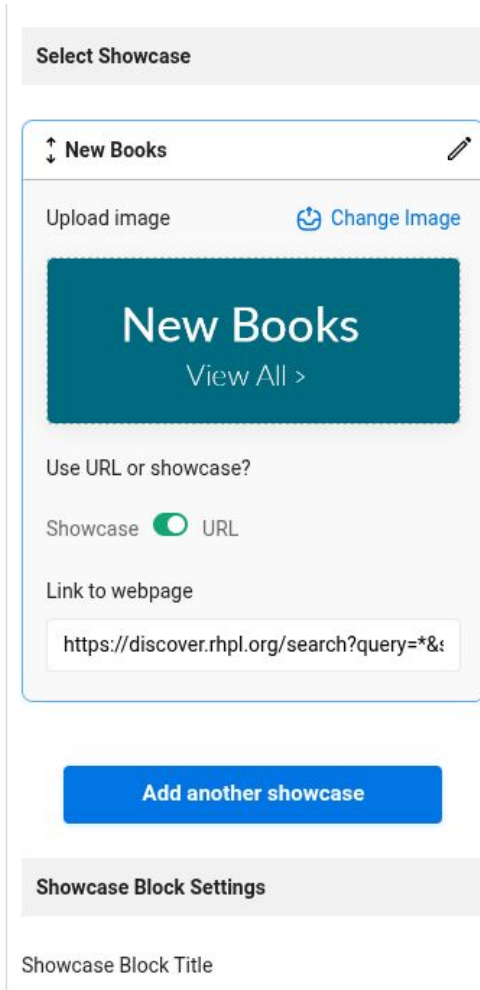

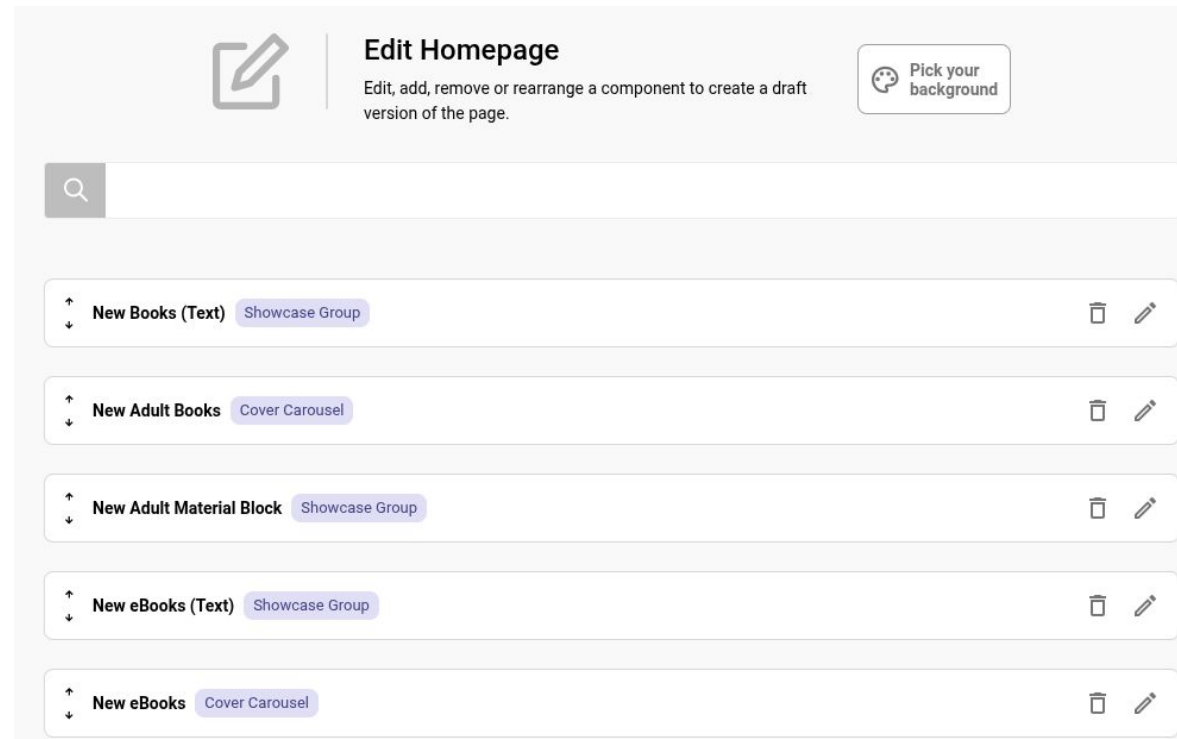

# Vega Discover Refined Search on Homepage

```
/*Remove View All  
button*/  
button[data-automation-id=  
"btn-view-more"] {  
    display: none;  
}  
  
/*Remove built in title  
(Your css codes may be  
different!)*/  
.MuiBox-root.css-u0bycj {  
    display: none;  
}
```

#IUG2025

**Hiding the showcase title and view all button:** Vega by default forces their inept lists on their cover carousels.

*Solution:* Added custom CSS to the header to hide all showcase group titles as well as their “view all” button. As well as create showcase groups that hold images with direct links to your catalog.

# VEGaaoogle Kiosks @ RHPL

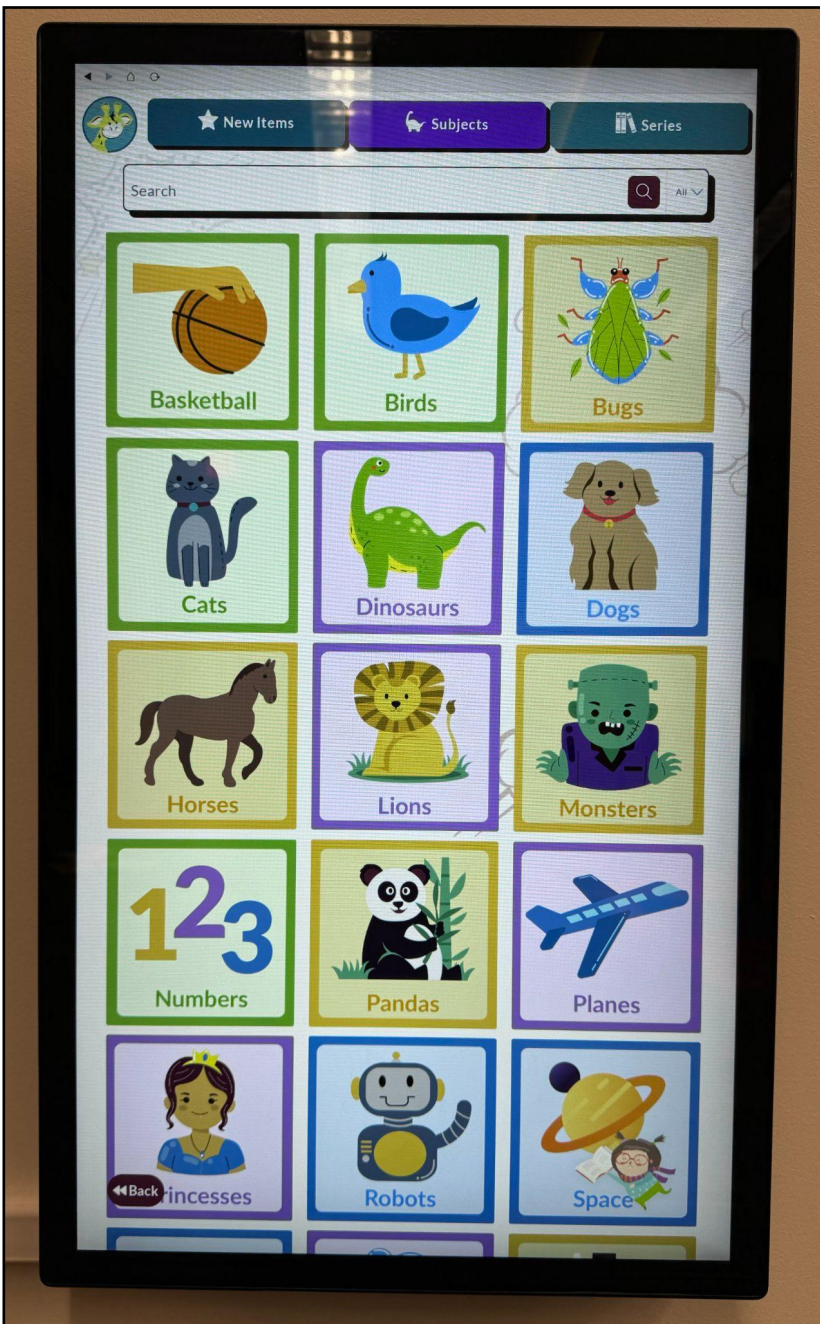

# Vega Kids' Catalog with Google Kiosks

**Simplified Deployment & Management:** Moved from Windows 11 with third-party tools to Google Chrome OS Enterprise, leveraging Vega Discover, Google Kiosks, and Google Guest Management.

**Enhanced Security:** Chrome OS updates automatically, eliminating the weekly update gaps experienced with Windows 11.

**Kid Friendly:** User tested by our service population and developed based on their feedback and recommendations.

# Limitations of Vega Discover Homepages & Our Solutions

**New Tab Issue:** Vega Homepage links open in a new tab, disrupting Google Kiosk navigation.

*Solution:* Added custom JavaScript to keep clicks in the same window.

**Cookie Banner Problem:** Cookie prompts reappear after every session on wiped devices, confusing young users.

*Solution:* Blocked the cookie banner to prevent recurring prompts.

**Login & Bookshelf Removal:** Kiosks are for discovery, not checkout.

*Solution:* Hid login and bookshelf features for a streamlined experience.

#IUG2025

```
/*Add more subjects here. Goes by file name (case sensitive)*/  
function addClickListenerToImage() {  
  const imgnewkidsbooksoldteal = document.querySelector( 'div[aria-label*="New"]' );

}
```

**IUG 2025**

# Google Kiosks

- Deploying through Google Kiosks is straightforward and easy to manage.
- Chrome OS (Flex) devices update automatically, ensuring security while preventing patron information from being stored.
- Creating a Chrome Application is simple, and once set up, it seamlessly deploys across all Chrome Kiosk devices.
