

Using Custom Batch Processes to Create Better Quality eBook Records

for less Money and Minimal Time

 #IUG2019

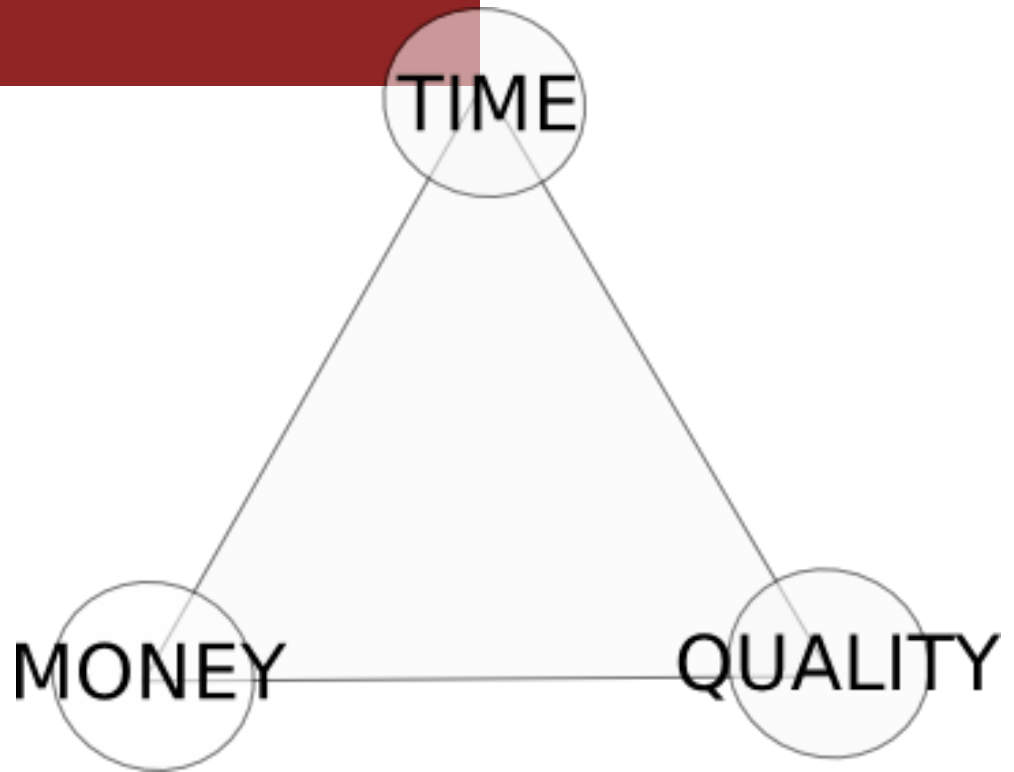

Sunday, May 5th | Pre-Conference

Monday, May 6th – Wednesday, May 8th | Main Conference

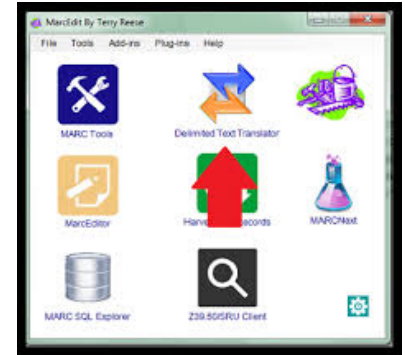

The Challenge: TIME-QUALITY- COST

- How to include eBook records in our Sierra catalog efficiently and inexpensively without compromising quality (too much)

The Tools:

- Using OCLC Connexion and Sierra Functions like Global Update (or MarcEdit), we combine MarcExpress records from OverDrive with batch-searched records from OCLC and send them to Backstage Library Works to do their magic.

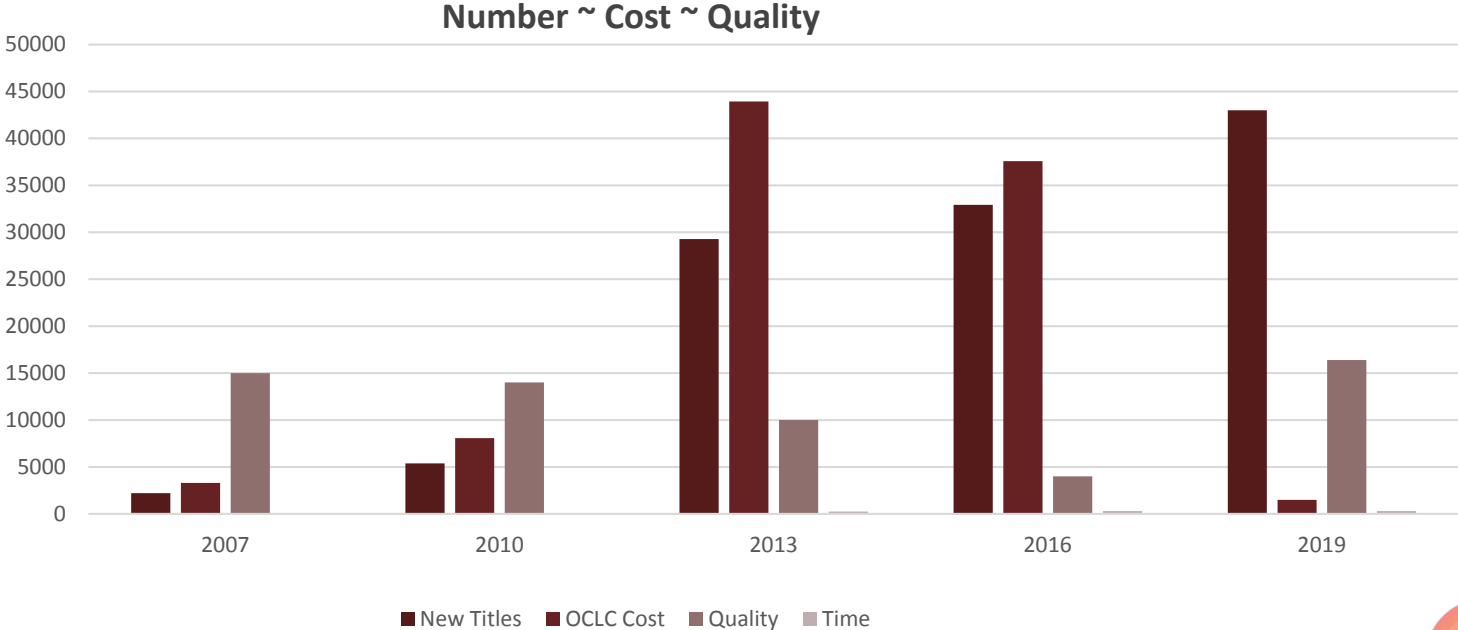

Old Process: The PROMISE

- \$1.50 per record from OCLC
- Full-Level Cataloging
- No Duplicates
- Controlled Authorities

Old Process: The REALITY

- \$1.50 per record
- Level M, K or 3 Cataloging
- Lots of Overlays
- Often, machine cataloged records with no authority control, no RDA nor AACR2 guidelines followed

Numbers, Cost, Quality of eBook MARC records 2007-2018

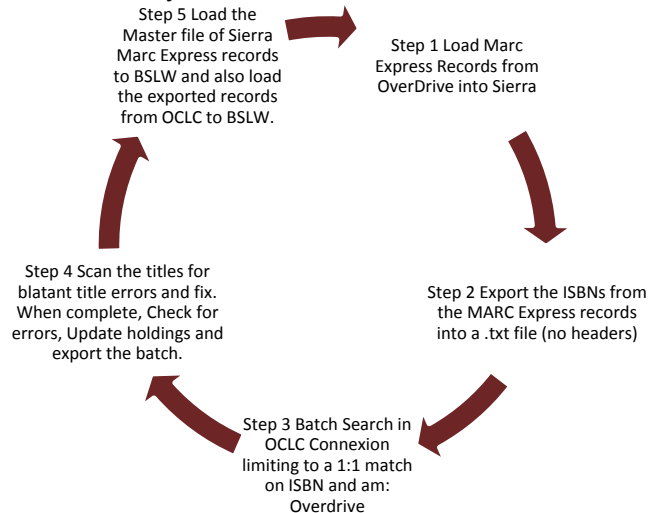

**In 2017, we
started
Playing with
Batches**

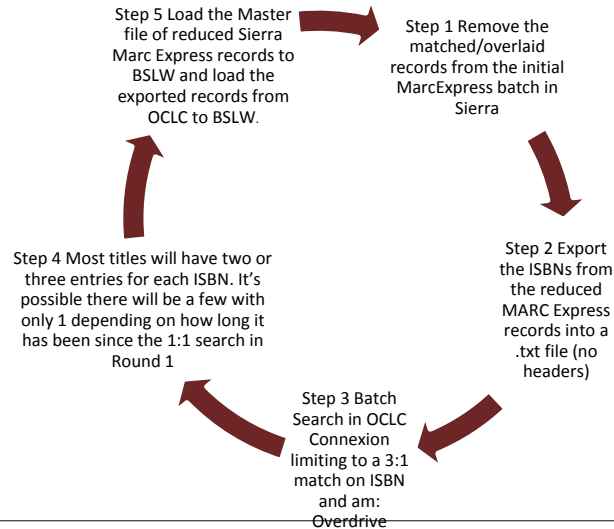

The Process: Round 1

- Step 1: Load Marc Express records from OverDrive into Sierra
- Step 2: Export ISBNs from those records (99% will have them) to a text file
- Step 3: Batch Search ISBNs in OCLC Connexion and limit to OverDrive as the accession mode (am: overdrive) to a 1:1 match only
- Step 4: Scan the titles for title errors and fix those individually
- Step 5: Export those to BSLW Job as your OCLC records. Also export MarcExpress from Sierra as your MasterMarc file.

The Process: Round 2

- Step 3 is the changed step that will now allow you to retrieve records that matched up to 3 times on your OCLC search criteria
- Step 4: Definitely requires more work than in Round 1.
- Best to batch from Connexion in quantities of 250-500 records at a time.

Exporting ISBNs to Text and cleaning up using Text-to-Columns and stripping after the 14 digits

Convert Text to Columns Wizard - Step 3 of 3

This screen lets you select each column and set the Data Format.

Column data format

- General
- Text
- Date: MDY
- Do not import column (skip)

General converts numeric values to numbers, date values to dates, and all remaining values to text.

Note	511	0	Read by Barbara Rosenblat, Kivlighan de Montebello and a full cast.
Note	520	0	If you liked the movies Elf and Shrek, you'll love THE ENCHANTED FILES--a magical, hilarious comedy series about fantastical creatures in the modern world by the bestselling author of My Teacher Is an Alien: Bruce Coville! Any troll worth his farts knows that a proper troll should: 1. Avoid thinking or feeling! (Feelings? Blech!) 2. Love burping and farting! (But who doesn't?) 3. And, most important, despise humans! But Ned is not just any troll. Even though Ned is nearly seven feet tall, with a nose the size of a pickle, Ned has a heart full of LOVE! A heart that swoons over poetry and craves true friendship! And when it comes to humans... it's complicated. So complicated that long ago, Ned fled the Enchanted Realm for the one place no one would notice a troll hiding in plain sight: NEW YORK CITY. But one human boy--Cody--has noticed. And Cody's snooping leads to a wild and hilarious adventure that takes readers from the tunnels underneath Grand Central all the way to the Enchanted Realm (and back again). "Bruce Coville is a wizard at telling stories."--Christopher Paolini, New York Times bestselling author of Eragon

Follow-up Issues

- Some records with no subjects (~35/1500)
- Occasionally miss the inappropriate capitalization or non-capitalization of a word
- Sometimes a 'series' sneaks into and remains in a title entry
- Sometimes two slight variations on 264 field create two fields that are almost but not quite identical. Hard to dedupe these

Follow-up Ideas

- We could add more custom requests with Backstage. One idea is to remove the edition statement as these refer to a physical format about 90+% of the time
- We could probably eliminate 505 fields since those are usually vendor-loaded chapter headings that are fill more space than any use they may have.
- It is still a work in progress
